

Green Map Logo © 2003 Green Map Systems, Inc.

These maps are an early edition of the Cambridge and MIT green maps produced by GreenMap MIT. The purpose of a green map, is to educate the public about the variety of resources available to them to lead a more environmentally sensitive lifestyle as well as the hazards they are exposed to; the latter have been omitted in the enclosed maps for clarity. For additional, more complete, maps and information about participating visit us at greenmap.mit.edu
